

TRICARE APPEARANCE PROTECT

Complete interior and exterior protection for your vehicle

To keep your vehicle looking like new, **Tricare Appearance Protect** offers unrivalled protection against many common environmental hazards that cause damage to your vehicle.

Tricare Appearance Protect offers industry-leading protection to keep your vehicle looking "like new" and maximize its resale value. Tricar has been providing appearance protection products for decades, and all of our products have been rigorously tested and proven effective. In addition, our products are water-based and environmentally friendly.

1. Electromagnetic Corrosion Protection

Take advantage of an effective and eco-friendly method to protect the body of your vehicle. Fighting rust is a must. **Tricare Appearance Protect** offers coverage beyond the manufacturer's limited corrosion warranty. **Tricare Appearance Protect** offers the most advanced corrosion protection available using our leading edge E.I.C.C.T electromagnetic induced corrosion technology. Our technology sends a unique and patented AC wave signal onto the sheet metal panels over your entire vehicle, protecting all inside and outside sheet metal surface areas.

Coverage is available for all types of cars, trucks and SUV's including hybrid and electric models.

Key Benefits At-A-Glance

- Testing that has proven to reduce the rate of corrosion on automotive sheet metal panels by up to 99.7%.
- Total perforation protection, even when caused by stone chips and scratches.
- An environmentally-friendly alternative to chemical sprays.
- One-time installation with no inspections or reapplications required.
- Electromagnetic protection extends to areas of your vehicle left unprotected by traditional rust spray solutions.

2. Exterior Paint Protection

Our advanced Carbon Polymeric Paint Coating offers the best exterior paint protection available in the industry. **Tricare Appearance Protect** features an eco-friendly exterior paint treatment free from volatile organic compounds (VOCs) and specifically formulated to bond directly to your vehicle's clear-coat finish. Professionally applied by trained technicians, this protection

TRICARE

APPEARANCE PROTECT

provides a lasting protective barrier and creates a smooth, easy to clean surface that resists adhesion and protects against the damaging effects of UV rays. **Tricare Appearance Protect** maintains your vehicle's exterior finish with our top-quality paint protection.

Tricare Appearance Protect shields against permanent paint damage from:

- Tree Sap
- Bird Droppings
- Insects
- Road Tar
- Salt
- Overspray
- Acid Rain
- Industrial Fall-out
- Oxidation and Loss of Gloss

3. Cosmetic Rust and Paint Bubbling

Tricare Appearance Protect guards your vehicle against both cosmetic rust and paint bubbling. This unique protection requires the purchase and application of both the Tricare Electromagnetic Corrosion Protection Module and Tricare Exterior Paint Protection.

4. Interior Protection

Protect your interior surfaces from life's little spills. Our environmentally-friendly interior protection means you'll never have to worry about permanent food or liquid surface stains again. Designed to act as a powerful and invisible barrier, our specially-formulated interior protection guards against repeated spills, with no change to the surface's natural appearance. As an added bonus, you also receive protection against accidental rips, tears, and burns.

You are not required to purchase Tricare Appearance Protect in order to purchase, lease, or otherwise obtain financing for your vehicle.

This brochure is intended solely as a brief summary of the benefits provided by Tricare Appearance Protect. Please read the full service agreement for a listing of all specific terms, coverages, limitations, restrictions, and exclusions. A copy of the full service agreement will be provided to you prior to purchase.
